

Dry Wipes

Smoother, Ultra-Low & Low Linting Flat Wipes

Dry Wipes are ideal for general wiping needs, or for environments that require low or ultra-low lint wipes—i.e. aerospace, electronics, printing, high-tech, manufacturing, etc. All wipes are produced using proven textured non-woven technology, and are wood/poly based. Choose from Blue ultra-low linting flat wipes, white flat sheet aerospace grade wipes*, or white, perforated** ultra-low linting rolls.

*Only 6060F and 66 Bulk are aerospace approved

** Some linting will occur near perforations

BENEFITS:

- ◆ Superior, and more durable than other disposable wipes.
- ◆ Smoother Ultra-Low and Very-low linting rolls and flat sheets are ideal for just about any job.
- ◆ Economical—less expensive and more environmentally friendly than shop towels which require heat intensive laundering, and may not get 100% clean.
- ◆ Convenient sizing and packaging
